

Base 128™

Base 128 – heavy duty body mount

The classic best seller of body mounts for many years. It is robust and flexible due to its adjustable ball joint for the radiator. The ball joint allows positioning of the radiator irrespective to the base. The base is designed for use of radiators from 27–1000 MHz.

Can be mounted on top of the vehicle roof or on the side of the vehicle.

Read more in our Product Catalogue about suitable radiators.

- **Designed for reliable and fixed hole mounting**
- **Operates in frequency range 27–1000 MHz**
- **Robust and tested accordingly to automotive industry quality demands**
- **Ball joint for the radiator, allowing positioning of the radiator irrespective**
- **Designed for radiators with M6 threads**
- **Mount hole diameter 19 mm**

Specifications

Electrical

Frequency	27–1000 MHz
Impedance	Nominal 50 ohm
Polarization	Linear vertical
VSWR	Depending on radiator
Gain	Depending on radiator
Max Power	100 W

Mechanical

Dimension	48 x 44 (ØxH) mm (without radiator)	
Weight	100 g	
Material	Pin	Stainless steel
	Joint	Zinc, black powder lacquer
	Base	Polycarbonate
	Isolator	PP, fibreglass reinforced
Sealing	Silicone	
	Contact house	Zinc, surface treated
Colour	Black	

Environmental

Temperature	Storage	-40°C +80°C
	Operating	-25°C +70°C

Other

Cable			
Product No	128.51.00.01	128.51.01.05	128.51.00.07
	Without cable	LL58 3.65 m	LL58 5 m
Connector			
Product No	128.51.00.01	128.51.01.05	128.51.00.07
	Press connector	UHF (male)	open end
	128.51.00.08		
	LL58, 5 m, BNC (male)
