SkyHawk™ HDDs are designed for use in CCTV systems operating in 24/7 mode. The drives, with capacity up to 10 TB, can work non-stop in systems processing and recording audio and video, especially in NVRs and NAS systems. The SkyHawk hard drives with optimized ImagePerfect™ firmware minimize the risk of loss of image frames with heavy load (even 3 times higher than in the case of HDDs in PCs).

The hard drive is compatible with Hikvision DVRs/NVRs.

Key features

- Capacity: **8 TB**
- Yearly workload limit: 180 TB
- 3-year limited warranty
- Solid construction suitable for operation in multi-disk arrays

Specifications

Name	HDD Seagate ST8000VX0022 8TB
Code	M89321
Model	ST8000VX0022
Interface	SATA III
Family	SkyHawk
Capacity	8 TB
Size	3.5"
Buffer size	64 MB
Typical power consumption:	
Read / Write	5.6 W
Idle	1.8 W
Sleep	0.5 W
Weight	0.41 kg
Remarks	dedicated for CCTV applications
