

3in1 Self Cleaning 316L Stainless Steel Digital Underwater Camera for Marine and rivers observation

✓ **3 in 1 Digital Underwater Camera**

Equipped with cleaning brush to reduce attachment on the lamp and camera, time & labor-saving.

✓ **Advantages:**

Self cleaning lens: the underwater lens is automatically cleaned to reduce the maintenance of underwater camera and lighting lens;

HD video: 1080P underwater HD video;

Auxiliary lighting: deep water auxiliary lighting;

Fixed point observation: long time underwater fixed point observation

✓ **Technical parameter:**

Withstand voltage: ≤50(dustomized);

Weight: 3.5kg(excluding cable);

Shell material: corrosion resistant 316L stainless steel;

Cable length: 15m(can be extended to 75m);

Image output: 1920(H) x 1080(V), 1080p Hd;

Underwater viewing angle: about 75°x50°;

Light color and illuminance: positive white, ≤1000lux;

Cleaning angle: 0-140°;

Cleaning range: r30-95mm;

Connecting line: RJ45 connecting line, line to line aviation socket; flange aviation socket(one out of two);

✓ **Application:**

Observation of marine pastures, coral reefs, aquaculture, rivers and lakes.
