

# Base 2500™

Our new easy to mount high performance “allround” base. Base 2500 is designed to carry both long, low frequency radiators as well as short high frequency radiators.

The base is designed for use with radiators in the frequency range 27–2500 MHz. Can be combined with a number of radiators.

Read more in our product catalogue about suitable radiators.

Designed for reliable fixed hole mounting

- Operates in frequency range 27–2500 MHz
- Robust and tested accordingly to automotive industry quality demands
- Designed for radiators with M4 or M6 threads
- Easy and quick mounting
- Easy to mount with the attached key
- Mount hole diameter 14 or 19 mm, max 20 mm
- Combines our long experience in antenna development with new technology

## Specifications

### Electrical

Frequency	27–2500 MHz
Impedance	Nominal 50 ohm
Polarization	Linear vertical
VSWR	Depending on radiator
Gain	Depending on radiator
Max Power	50 W

### Mechanical

Dimension	39 x 22 (ØxH) mm (without radiator)
Weight	37 g without cable (without radiator)
Material Base:	Zamak, Arnitel, Stainless steel, ABS, Zutel
Colour	Black

### Environmental

Temperature	Storage: -40°C +85°C Operating: -30°C +70°C
-------------	--

### Product No

	707105
--	--------

### Other

Cable	Without cable
Connector	FME (m) in the base

Smarteq reserves the right to change specifications without prior notice.
