Using your Underwater Camera

The Underwater Camera can be used for a variety of fun and practical applications and can be used both in and out of water!

We suggest using the Underwater Camera for the following:

Swimming:

Videotape the kids in the water- help improve their swimming techniques or record their very first swim. Place the Underwater Camera at the bottom of the pool and kids will enjoy seeing their water games captured on VCR! Place the Underwater Camera in your fish tank and see your aquarium fish on TV!

Snorkeling& Diving:

Record snorkelling or diving trips* , show friends& family the tropical fish, coral reefs, underwater treasures and friendly dolphins you encountered on your holiday! Underwater Camera is also ideal for the elderly who are unable to swim but still want see the action!

Camera Specifications
