Mounting instruction

AIRCELL®5

N-Connector, crimp / item. No.: 7701

Cut off cable tail right-angled. Move the crimp-cover over the cable head. Cut off 16 mm of te outer sheathing wit a knige.

Bend copper braid upwards right-angled.

Slit slightly a lenght of 8 mm of the copper foil and remove it.

Remove 6 mm of the dielectric.

Put the head pin onto the inner conductor and solder/crimp it.

Insert the prepared cable end into the connector housing as far as it will go (Click).

Cut off the copper braid with a side cutter and move the crimp jacket to the front.

Crimp the crimp jacket with a crimp tool; herewith the copper braid will be trapped between the crimp jacket and the connector housing.
